5-Inch Extension Adds Space for a Second Seat, Provides 22 Different Ways to Ride

ATLANTA, March 26, 2018 /PRNewswire/ -- Graco continues to offer baby and child gear designed to meet the needs of growing families with the launch of the Graco Uno2Duo Single Stroller, Double Stroller and Travel System. This stroller is ready for one child, but easily extends 5-inches to add room for a second seat or a standing platform that allows toddlers to ride along.

As a single stroller, the Uno2Duo offers eight ways to ride with one or two children in tandem with a standing platform for toddler use. To convert to a double stroller, the Uno2Duo stroller frame easily extends five inches. With the purchase of a second seat or infant car seat, the stroller provides 11 to 14 ways to ride with two children.

The Uno2Duo can also be purchased as a travel system, offering the ultimate versatility to fit the needs of every family. The all-inclusive system comes with the Uno2Duo stroller and the Graco SnugRide® SnugLock™ 35 Infant Car Seat. As a travel system, the Uno2Duo offers 18 ways to ride with one or two children.

"It can be hard to imagine what life will be like before a baby arrives, but we work hard at Graco to create gear that makes the parenting journey easier, no matter what stage you're in," said Erin Varano, Brand Marketing Director at Graco. "We designed the Uno2Duo stroller with a five-inch extension so that it can easily transition from a single stroller to a double and fit the needs of growing families."

Additional ease-of-use and comfort features of the Uno2Duo Stroller include:

- Multi-position, reclining main seat can convert to a bassinet and face mom or the world
- Easy, one-hand fold conveniently works with or without the main seat on the frame
- A three or five-point harness and a UV50 extendable canopy and visor keep baby safe and protected
- Parent phone and cup holders, removable child's tray and an expandable extra-large basket create added storage options
