REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Benefit Plans Administrative Committee
Newell Rubbermaid 401(k) Savings and Retirement Plan

We have audited the accompanying statements of net assets available for benefits of Newell Rubbermaid 401(k) Savings and Retirement Plan as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Newell Rubbermaid 401(k) Savings and Retirement Plan as of December 31, 2012 and 2011, and the changes in its net assets available for benefits for the year ended December 31, 2012, in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2012, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

Newell Rubbermaid 401(k) Savings and Retirement Plan

Notes to Financial Statements

Year Ended December 31, 2012

1. Description of the Plan

The following description of the Newell Rubbermaid 401(k) Savings and Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Summary Plan Description document and Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan administered by the Benefit Plans Administrative Committee (the “Plan Administrator”), which is appointed by the Board of Directors of Newell Operating Company, a subsidiary of Newell Rubbermaid Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Eligibility

Certain employees of Newell Operating Company and affiliated companies who have adopted the Plan (collectively, the “Company”) are eligible to participate in the Plan. Full-time employees, as defined by the Plan document, are eligible to participate in the Plan upon date of hire. Other employees are eligible to participate after completing one year of service, as defined by the Plan document.

Contributions

Subject to legal and Plan limits, participants may elect to contribute up to 50% of pretax earnings, as defined by the Plan document. Participants may also make catch-up contributions if they have attained age 50 before the close of the Plan Year. The Company contributes a matching contribution for participants in an amount equal to 100% of the first 3% of compensation plus 50% of the next 2% of compensation contributed by the participant. Certain union employees within Rubbermaid Inc. are eligible for an annual retirement contribution based on hours worked and generally must be employed on the last day of the Plan year to receive the contribution. Nonunion participants are eligible for an annual retirement savings contribution, which is determined based on the participant’s age and years of service. Nonunion participants hired prior to January 1, 2004, who were age 50 or older and were actively employed on January 1, 2005, are eligible for an annual transition retirement contribution, which is determined based on the participant’s age. Generally, participants must work 1,000 hours and be employed on the last day of the Plan year to receive the retirement savings and transition retirement contributions. The Plan also accepts rollovers from other tax-qualified plans.

Participant Accounts

Separate accounts are maintained for each participant. Each participant’s account is credited with the participant’s contributions and Company matching contributions and an allocation of (a) the union retirement contribution, if applicable, (b) the retirement savings contribution, if applicable, (c) the transition retirement contribution, if applicable, and (d) Plan earnings (which are net of investment management expenses). Allocations are based on participant earnings or account balances, as defined. Additionally, participant accounts are assessed a quarterly fixed fee as consideration for services provided by the trustee and recordkeeper, as well as transaction specific fees, such as loan origination, brokerage and shipping fees, which are directly assessed against the account of the participant initiating the transaction.

Vesting and Forfeitures

Participants are immediately vested in their contributions. Effective January 1, 2010, the Plan was amended to modify the vesting provisions for Company matching contributions for Plan participants hired after December 31, 2009. Company matching contributions for these participants will become 100% vested when the employee has rendered three years of vesting service, as defined. Eligible participants hired prior to January 1, 2010 are immediately vested in the Company matching contributions. All union retirement contributions vest over a six-year graded schedule and the retirement savings and transition retirement contributions become 100% vested when the employee has rendered three years of vesting service, as defined. Forfeitures are used to pay Plan expenses and reduce Company matching or retirement contributions. Forfeitures available for future use were \$1,124,104 and \$385,610 at December 31, 2012 and 2011, respectively. Forfeitures of \$903,111 were used to reduce Company matching contributions and retirement contributions for 2012.

Newell Rubbermaid 401(k) Savings and Retirement Plan

Notes to Financial Statements (continued)

Participant Loans

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, excluding any account balance associated with Qualified Voluntary Employee Contributions. Loan terms range from one to five years (up to ten years for the purchase of a principal residence). The loans are secured by the balance in the participant's account and bear interest at a rate based on prevailing market conditions. Interest rates on loans outstanding at December 31, 2012 ranged from 3.25% to 9.69%. Principal and interest are paid ratably through periodic payroll deductions.

Investment Options

All investments are participant-directed. Participants may direct contributions to the Plan to one or more of the Plan's investment funds. The portion of the Plan's investments held in the Company Stock Fund is designated as an employee stock ownership plan ("ESOP"). In addition to the investment funds offered by the Plan, participants may invest in a self-directed brokerage account. Participants may change their investment options or reallocate investment balances on a daily basis.

Payment of Benefits

On termination of service or upon death, disability, or retirement, a participant may receive a lump-sum amount equal to the vested value of their account or elect to receive periodic installment payments. Generally, unless the participant elects otherwise, distributions related to the ESOP portion of the participant's account will be made in equal installments over a period not exceeding five years. Benefits are recorded when paid.

2. Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value for mutual funds and common stock equals the quoted market price in an active market on the last business day of the Plan year. Shares of mutual funds are valued at the net asset value of shares held by the Plan on the last business day of the Plan year. The Plan's common/collective trust fund investments, including the common/collective trust fund investments that are included in the INVESCO Stable Value Fund (the "Fund"), are valued at their net asset value per unit as reported by the fund manager of the collective trust.

The Fund is comprised of common/collective trust funds, synthetic guaranteed investment contracts (referred to hereafter as wrapper contracts) and a short-term interest fund. The Fund's key objectives are to provide preservation of principal, maintain a stable interest rate and provide daily liquidity at contract value for participant withdrawals and transfers in accordance with the provisions of the Plan. The Fund accomplishes these objectives through the wrapper contracts which guarantee the contract value to the extent the fair value of the underlying investments in the common/collective trust funds is less than contract value. The fair values of the wrapper contracts are determined using the income approach. The difference between the replacement cost of the wrapper contract (a re-pricing provided annually by the contract issuer) and the current wrapper fee is converted into assumed cash flows over the duration of the holding. The cash flows are discounted using a yield curve interpolated from swap rates and adjusted for liquidity and credit quality. The fair value of the short-term interest fund is based on the net asset value reported by the fund manager, which is derived by the fund manager based largely on the quoted market prices of the assets underlying the fund.

The wrapper contracts are defined as fully benefit-responsive investments. Based on the terms of the wrapper contracts and the fair values of the investments in the Fund, an adjustment is required to adjust the aggregate fair value of the Fund's investments in common/collective trust funds, short-term interest fund and wrapper contracts to contract value, with contract value of the Fund determined based on the provisions of the wrapper contracts. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Contract value is the amount participants would likely receive if they withdrew or transferred all or a portion of their investment in the contract. See Note 5 of Notes to Financial Statements for further discussion of events and circumstances that would limit the ability of the participant to transact at contract value.

Newell Rubbermaid 401(k) Savings and Retirement Plan

Notes to Financial Statements (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Interest income from notes receivable from participants is recorded on an accrual basis. Related fees are recorded as administrative expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded within the Statement of Changes in Net Assets Available for Benefits.

Administrative Expenses

All normal costs and expenses of administering the Plan and trust are paid by the Plan's participants. Any cost resulting from a participant obtaining a loan or requesting a distribution or in-service withdrawal may be borne by such participant or charged to the participant's individual account. Administrative expenses in the Statement of Changes in Net Assets Available for Benefits includes costs associated with these participant-initiated loan and withdrawal transactions, which are allocated to the accounts of the participants initiating the transactions, as well as fees assessed by the Plan's custodian and recordkeeper directly against participant accounts as consideration for services provided to the Plan.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Management believes that the estimates utilized in preparing the Plan's financial statements are reasonable and prudent. Actual results may differ from those estimates.

Fair Value Measurements and Disclosures

In accordance with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures", assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

- Level 1: Fair value is based on observable inputs such as quoted prices for identical assets or liabilities in active markets.
- Level 2: Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3: Fair value is based on unobservable inputs that reflect management's own assumptions.

The fair values estimated and derived from each fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Recently Adopted Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards" ("ASU 2011-04"). ASU 2011-04 amended ASC 820 to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and requires enhanced disclosures, particularly for Level 3 fair value measurements. ASU 2011-04 is effective for the Plan prospectively beginning with the year ended December 31, 2012. The Plan adopted ASU 2011-04, and there was no impact to the financial statements or the disclosures as a result of adopting ASU 2011-04.

Newell Rubbermaid 401(k) Savings and Retirement Plan

Notes to Financial Statements (continued)

3. Fair Value Measurements

The following tables present the Plan's investments which are measured at fair value on a recurring basis as of December 31, 2012 and 2011:

	Fair Value at December 31, 2012	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Company stock (1)	\$ 57,082,053	\$ 57,082,053	\$ —	\$ —
Mutual funds (1)				
Balanced Funds	127,328,034	127,328,034	—	—
Fixed Income	66,197,842	66,197,842	—	—
International Equity	59,786,025	59,786,025	—	—
Common/collective trust funds (2)				
Large Cap Equity	182,281,161	—	182,281,161	—
Mid Cap Equity	5,459,983	—	5,459,983	—
Small Cap Equity	89,715,455	—	89,715,455	—
Intermediate Term Bond	5,229,073	—	5,229,073	—
International Equity	3,758,899	—	3,758,899	—
INVESCO Stable Value Fund (3)	194,685,578	—	194,610,154	75,424
Self-directed brokerage accounts (4)	6,475,746	4,134,175	2,341,571	—
Cash and cash equivalents	989,787	989,787	—	—
Total investments measured at fair value	\$ 798,989,636	\$ 315,517,916	\$ 483,396,296	\$ 75,424

- (1) The fair value of the Plan's mutual fund and common stock investments is determined on the basis of quoted prices in an active market. Shares of mutual funds are valued at the net asset value of shares held by the Plan on the last business day of the Plan year where the price of the fund is quoted in an active market. Accordingly, these investments have been classified as Level 1.
- (2) The investments underlying the Plan's common/collective trust fund investments generally include shares of common stock and fixed income investments whose values are determined on the basis of quoted prices in an active market. The Plan's common/collective trust fund investments are valued based on the net asset value per share or unit as reported by the fund manager, multiplied by the number of shares or units held as of the measurement date. Accordingly, these investments have been classified as Level 2 investments.
- (3) The Fund is comprised of common/collective trust funds (\$181,531,092), short-term interest fund (\$13,079,062), and wrapper contracts (\$75,424). The common/collective trust fund investments underlying the Fund include investments in government, agency and high quality corporate bonds. Investments in common/collective trust funds and the short-term interest fund are valued at the net asset value per share or unit multiplied by the number of shares or units held as of the measurement date and, accordingly, have been classified as Level 2 investments. The primary input used to value the wrapper contracts is interest rates for comparable instruments with similar maturities with counterparties of similar credit standing. These interest rates are used to discount the estimated future cash flows associated with the investments to determine fair value. Accordingly, these investments have been classified as Level 3 investments. See Note 2 and Note 5 for further information regarding the Fund.
- (4) The self-directed brokerage accounts balance is comprised of common stock investments (\$3,286,126), mutual fund investments (\$848,049), investments in a short-term interest fund (\$1,977,406) and other investments (\$364,165). The fair value of the mutual fund and common stock investments is determined on the basis of quoted prices in an active market. Accordingly, these investments have been classified as Level 1. Investments in the short-term interest fund are valued at the net asset value per share or unit multiplied by the number of shares or units held as of the measurement date and, accordingly, have been classified as Level 2 investments.

Total investments measured at fair value	<u>\$ 732,821,520</u>	<u>\$ 351,977,864</u>	<u>\$ 380,582,492</u>	<u>\$ 261,164</u>

- (5) The fair value of the Plan's mutual fund and common stock investments is determined on the basis of quoted prices in an active market. Shares of mutual funds are valued at the net asset value of shares held by the Plan on the last business day of the Plan year where the price of the fund is quoted in an active market. Accordingly, these investments have been classified as Level 1.
- (6) The investments underlying the Plan's common/collective trust fund investments generally include shares of common stock and fixed income investments whose values are determined on the basis of quoted prices in an active market. The Plan's common/collective trust fund investments are valued based on the net asset value per share or unit as reported by the fund manager, multiplied by the number of shares or units held as of the measurement date. Accordingly, these investments have been classified as Level 2 investments.
- (7) The Fund is comprised of common/collective trust funds (\$194,370,625), wrapper contracts (\$261,164) and a short-term interest fund (\$7,243,725). The common/collective trust fund investments underlying the Fund include investments in government, agency and high quality corporate bonds. Investments in common/collective trust funds and the short-term interest fund are valued at the net asset value per share or unit multiplied by the number of shares or units held as of the measurement date and, accordingly, have been classified as Level 2 investments. The primary input used to value the wrapper contracts is interest rates for comparable instruments with similar maturities with counterparties of similar credit standing. These interest rates are used to discount the estimated future cash flows associated with the investments to determine fair value. Accordingly, these investments have been classified as Level 3 investments. See Note 2 and Note 5 for further information regarding the Fund.
- (8) The self-directed brokerage accounts balance is comprised of common stock investments (\$3,295,036), mutual fund investments (\$886,534), investments in a short-term interest fund (\$1,838,823) and other investments (\$295,837). The fair value of the mutual fund and common stock investments is determined on the basis of quoted prices in an active market. Accordingly, these investments have been classified as Level 1. Investments in the short-term interest fund are valued at the net asset value per share or unit multiplied by the number of shares or units held as of the measurement date and, accordingly, have been classified as Level 2 investments.

See Note 2 for further information regarding the Plan's valuation methodologies for the above investments.

Newell Rubbermaid 401(k) Savings and Retirement Plan

Notes to Financial Statements (continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

	Wrapper Contracts
Balance at beginning of year	\$ 261,164
Unrealized loss relating to instruments held at year-end	(185,740)
Balance at end of year	<u>\$ 75,424</u>

The loss on wrapper contracts is unrealized and is included in the adjustment from fair value to contract value for fully benefit-responsive investment contracts in the Statements of Net Assets Available for Benefits.

4. Investments

During 2012, the Plan's investments, including investments purchased and sold, as well as held, during the year, appreciated in fair value as follows:

	Net Appreciation in Fair Value of Investments
Mutual funds	\$ 36,197,749
Common/collective trust funds	24,142,521
Common stock	16,617,854
	<u>\$ 76,958,124</u>

The fair value of individual assets that represent 5% or more of the Plan's net assets available for benefits as of December 31 is as follows:

	2012	2011
American Century U.S. Large Cap Growth Equity Trust	\$92,166,249	**
Eaton Vance Small Cap Core Fund	89,715,455	\$85,310,473
PIMCO Total Return Instl Fund	66,197,842	58,168,470
Dodge & Cox International Stock Fund	59,786,025	54,100,977

American Funds Growth Fund of America - Class R6	***	88,059,175

* Party in interest

** Added as an underlying investment in the Fund during 2012

*** Removed from the Fund during 2012

Newell Rubbermaid 401(k) Savings and Retirement Plan

Notes to Financial Statements (continued)

5. Investment Contracts

The Plan's investments include the Fund's investments in wrapper contracts. In a wrapper contract structure, the underlying investments are held under the Fund through a group trust (i.e. common/collective trust funds) for retirement plan participants. The Fund purchases wrapper contracts from insurance companies and banks that credit a stated interest rate for a specified period of time. The wrapper contracts guarantee the contract value of the underlying investments for participant-initiated events. The wrapper contracts amortize the realized and unrealized gains and losses on the underlying fixed income investments, typically over the duration of the investments, through adjustments to the future interest crediting rate (which is the rate earned by participants in the Fund for the underlying investments). The issuers of the wrapper contract provide assurance that the adjustments to the interest crediting rate do not result in a future interest crediting rate that is less than zero. An interest crediting rate less than zero would result in a loss of principal or accrued interest. If the financial institution guaranteeing the wrapper contract fails to perform in accordance with the wrapper contract, the value of the Plan's investments in the Fund and the value of the wrapper contract would be subject to additional market gains and losses.

The crediting rates are typically reset on a monthly or quarterly basis and are based on the market value and performance of the underlying portfolio of assets backing these contracts. Inputs used to determine the crediting rate include each contract's portfolio market value, current yield-to-maturity, duration (i.e., weighted-average life), and market value relative to contract value. All contracts have a guaranteed rate of 0% or higher.

Because changes in market interest rates affect the yield-to-maturity and the market value of the underlying investments, they can have a material impact on the wrapper contract's interest crediting rate. In addition, participant withdrawals and transfers from the Fund are paid at contract value but funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate.

Gains and losses in the fair value of the wrapper contracts (inclusive of the underlying investments in the common/collective trust funds) relative to their contract value are included in the "Adjustment from fair value to contract value for fully benefit-responsive investment contracts" on the Statements of Net Assets Available for Benefits. If the adjustment from fair value to contract value is positive for a given contract, this indicates that the wrapper contract value is greater than its fair value. The embedded market value losses will be amortized in the future through a lower interest crediting rate than would otherwise be the case. If the adjustment from fair value to contract value is negative, this indicates that the wrapper contract value is less than its fair value. The amortization of the embedded market value gains will cause the future interest crediting rate to be higher than it otherwise would have been.

In certain circumstances, the amount withdrawn from the wrapper contract would be payable at fair value rather than at contract value. These events include (i) termination of the Plan, (ii) a material adverse change to the provisions of the Plan, (iii) if the employer elects to withdraw from a wrapper contract in order to switch to a different investment provider, or (iv) if the terms of a successor plan (in the event of the spin-off or sale of a business unit) do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract.

Examples of events that would permit a wrapper contract issuer to terminate a wrapper contract upon short notice include the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events was to occur, the wrapper contract issuer could terminate the wrapper contract at the market value of the underlying investments. The events described above that could result in the payment of benefits at fair value rather than contract value are not probable of occurring in the foreseeable future.

The Plan Administrator may elect to liquidate the Plan's investments in the Fund in whole or in part generally upon advance notice of 10 days to INVESCO, with the proceeds paid within 60 days thereafter. Any such liquidation from the Fund may cause the Plan to incur termination or other withdrawal-related costs. There are currently no restrictions on participant-directed withdrawals from the Fund.

Newell Rubbermaid 401(k) Savings and Retirement Plan**Notes to Financial Statements (continued)**

The actual yields realized by the Fund and the crediting interest rate after adjusting for the effects of the wrapper contracts as of December 31 are as follows:

	2012	2011
Average yields:		
Based on actual earnings	0.7%	1.0%
Based on interest rate credited to participants	2.2	3.1

The Fund also includes the value of a short-term interest fund in the amount of \$13,079,062 and \$7,243,725 at December 31, 2012 and 2011, respectively. The short-term interest fund is included in the financial statements at fair value.

6. Related-Party Transactions

All expenses related to the trustee and recordkeeping in connection with the operation of the Plan are paid by the Plan and included in the Statement of Changes in Net Assets Available for Benefits. All other costs are paid out of the Plan's assets, except to the extent the Plan Administrator, at its discretion, elects to have such expenses paid directly by the Company.

Certain Plan investments are shares of common stock of Newell Rubbermaid Inc., the ultimate parent of the Company, and a short-term interest fund managed by the Plan's recordkeeper and custodian. These investments have values of \$57,082,053 and \$15,056,468, respectively, at December 31, 2012, and values of \$44,556,992 and \$9,082,548, respectively, at December 31, 2011. As of December 31, 2011, the Plan's assets included a wrapper contract with the recordkeeper and custodian that had a fair value of \$187,558 with no corresponding asset as of December 31, 2012.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Income Taxes

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated March 18, 2003, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Based upon the Company's employer identification number, the Plan submitted an application for a new determination letter during January 2011, which is currently pending with the IRS. To the extent operational errors in the Plan have been identified or are identified in the future, the Plan Administrator has indicated that it will take the necessary steps, if any, to correct these errors. Otherwise, the Plan Administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

U.S. generally accepted accounting principles require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

Newell Rubbermaid 401(k) Savings and Retirement Plan**Notes to Financial Statements (continued)****9. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are subject to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The Plan generally does not require collateral from counterparties or use netting arrangements to support or mitigate credit risk associated with the wrapper contracts or the Plan's other investments. The Plan's primary credit risk is associated with the banks and insurance companies that are counterparties to the five wrapper contracts. As of December 31, 2012, the maximum amount of loss associated with a single counterparty to a wrapper contract is \$48,007,418.

10. Reconciliation of Financial Statements to Form 5500

	December 31,	
	2012	2011
Net assets available for benefits:		
Net assets available for benefits at year-end as reported in the accompanying financial statements	\$819,906,093	\$ 755,239,986
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	11,301,369	12,370,517
Net assets available for benefits at year-end per Form 5500	<u>\$831,207,462</u>	<u>\$ 767,610,503</u>

	Year Ended December 31, 2012
Changes in net assets available for benefits:	
Net increase as reported in the accompanying financial statements	\$ 64,666,107
Change in adjustment from contract value to fair value for fully benefit-responsive investment contracts	(1,069,148)
Net increase per Form 5500	<u>\$ 63,596,959</u>

The accompanying financial statements present fully benefit-responsive contracts at contract value. The Form 5500 requires fully benefit-responsive investment contracts to be reported at fair value. Therefore, the adjustment from contract value to fair value for fully benefit responsive investment contracts represents a reconciling item.

11. Subsequent Events

Effective January 1, 2013, the Plan was amended to modify the vesting provisions for Company matching contributions. Eligible Plan participants are immediately vested in Company matching contributions.

Effective April 1, 2013, the Vanguard Target Retirement Fund 2020, Vanguard Target Retirement Fund 2030, Vanguard Target Retirement Fund 2040, Vanguard Target Retirement Fund 2050 and Vanguard Target Retirement Fund 2060 were added as investment options.

Effective April 1, 2013, Kennedy Capital Management Small Cap Core-A replaced the Eaton Vance Small Cap Core investment option, and LSV Large Cap Value replaced the Eaton Vance Large Cap Value investment option. Amounts invested in Eaton Vance Small Cap Core were transferred to the Kennedy Capital Management Small Cap Core-A effective April 1, 2013, at which time the Eaton Vance Small Cap Core ceased to be an investment option in the Plan. Amounts invested in Eaton Vance Large Cap Value were transferred to the LSV Large Cap Value effective April 1, 2013, at which time the Eaton Vance Large Cap Value ceased to be an investment option in the Plan.
